

# Pelagic GZ BOP Fluid Range

## Key Product Characteristics:

Contain only PLONOR Chemicals.  
Green Zone for discharge in Norway.  
Two Years Field Experience.  
Excellent Technical Performance

## Product Range Includes:

- ◆ Pelagic GZ BOP Fluid
- ◆ Pelagic GZ BOP Glycol
- ◆ Pelagic GZ Pilot Line Fluid
- ◆ Pelagic GZ Compensator Fluid

*'Go Green With Pelagic'*

## PELAGIC GZ BOP FLUID

Pelagic GZ BOP Fluid Concentrate is an environmentally acceptable, technically superior alternative to standard BOP Fluids on the market today.

Pelagic GZ BOP Fluid exhibits outstanding lubricity, anti-wear, material compatibility, corrosion protection, stability and microbiological protection.

Pelagic GZ BOP Fluid contains only PLONOR Chemicals and is Green Zone for discharge in Norway.

Pelagic GZ BOP Fluid is also Non-Hazardous to Health.

Pelagic GZ BOP Fluid is designed for use at 10% v/v in fresh or potable water and must only be used with Pelagic GZ Glycol Anti-Freeze.

Pelagic GZ BOP Fluid boasts 2 years field experience on Off-shore Drilling Rigs in the Norwegian Sector and Barents Sea.

Existing Pelagic 50 users will see no decrease in technical performance when switching to Pelagic GZ BOP Fluid.

## PELAGIC GZ BOP GLYCOL

Pelagic GZ BOP Glycol is a high technology antifreeze additive and is the only antifreeze product recommended for use with Pelagic GZ BOP Fluid.

Pelagic GZ BOP Glycol, when used in conjunction with Pelagic GZ BOP Fluid, provides additional corrosion protection, stability against pH drift and improved bacterial resistance.

Pelagic GZ BOP Glycol contains high grade MEG and is filtered during manufacture to ensure system cleanliness.

Pelagic GZ BOP Glycol contains only PLONOR Chemicals and is Green Zone for discharge in Norway and Barents Sea.

*'Pelagic Green Zone Fluids are the most technologically and environmentally advanced hydraulic fluids ever developed for the Offshore Oil and Gas Industry.'*

## PELAGIC GZ PILOT LINE FLUID

Pelagic GZ Pilot Line Fluid is a pre-mixed, highly stable hydraulic fluid designed to offer maximum system protection in BOP Pilot Lines and other hydraulic applications.

Pelagic GZ BOP Pilot Fluid exhibits outstanding lubricity, anti-wear, material compatibility, corrosion protection, stability and microbiological protection.

Pelagic GZ BOP Pilot Fluid contains only PLONOR Chemicals and is Green Zone for discharge in Norway and the Barents Sea.

Pelagic GZ BOP Pilot Fluid is Non-Hazardous to Health .

Pelagic GZ BOP Pilot Fluid boasts 2 years field experience in Norway and the Barents Sea and also has 18 months field experience as a well intervention fluid in the UK and Norway .

## PELAGIC GZ 12 COMPENSATOR FLUID

Pelagic GZ 12 Compensator/Tensioner Fluid is Green Zone for discharge in Norway, providing an environmentally superior alternative to existing Red and Black Compensator Fluids.

Pelagic GZ 12 exhibits excellent lubricity, anti-wear, material compatibility, corrosion, protection, stability, microbiological protection and all round technical performance. The lubricity profile of Pelagic GZ12 is particularly impressive, offering measureable performance benefits in the field.

Pelagic GZ 12 offers a high degree of resistance to fire and explosion in high-pressure air operated systems and has been fully tested for compression ignition in line with industry safety requirements.

Pelagic GZ 12 Compensator/ Tensioner fluid has an upper temperatures stability of 70°C.

*'Pelagic GZ (Green Zone) Fluids provide the Offshore Oil and Gas Industry with Green alternatives to millions of litres of environmentally damaging chemicals discharged each year'.*
